DATA GOVERNANCE & INTEGRITY

Lachman CONSULTANTS

Experience. Excellence.™

Earn unwavering trust in your company's data with **Modern, Effective, Sustainable, World-Class** programs and solutions.

As Experts in Data Governance and Integrity, We Can Help.

Data, it's our global industry language

to define, describe, and demonstrate product safety, efficacy, and quality.

If patients trust data, they trust products.

> Earn trust by assuring data has integrity.

> Achieve data integrity by building holistic sustainable data governance "by design" into all our processes, quality systems, and organization culture.

Lachman Consultants is helping companies build and sustain holistic and effective data governance programs that assure integrity of data and secure the trust of regulators and patients alike.

DATA. IT'S OUR GLOBAL INDUSTRY LANGUAGE.

Lachman
CONSULTANTS

Experience. Excellence.™

Make Lachman Consultants' Data Integrity Services an essential part of your organization's journey to achieve unwavering trust in your data and product quality.

Our data integrity and governance services assist clients in support of the following:

❯ Assessments of maturity and gaps

❯ Custom-fit program design and consulting
